

New Capabilities. Diverse Products.

See how Yarde Metals is moving into the future.

**A complete company.
A complete mission
statement.**

We believe the success of our company is due to the strength and commitment of EVERY associate. What began in the basement of a home has grown into a company with 17 locations in the Northeast, Mid-Atlantic, Mid-West and Southern United States. And Yarde Metals couldn't have done that without employees who work every day to keep the promise we make to our customers – On Time, First Time, Every Time without compromise to quality or service.

Driving expansion with diverse products and capabilities.

Yarde Metals already has one of the most versatile inventories of Aluminum, Stainless and Carbon Steel sheet in the country. And with our new state-of-the-art, 150,000 sq. ft. Sheet Facility, we've added even more flexibility to our product offerings.

Our new location features a Cut-to-Length Line, shearing and precision saw cutting capabilities. Built adjacent to our 500,000 square foot headquarters on the 46 acre Yarde campus in Southington, CT, this facility utilizes green technology and is home to 5 million lbs. of inventory – including over 250 pre-cut sizes.

Outstanding quality. Incredible variety.

You want options. You'll get them with Yarde Metals. In 2006, we became part of the Reliance Steel and Aluminum Company – the largest metals service center in North America. Now you have more choices than ever:

Advanced processing capabilities.

Our loyal customers have asked us to find ways to add value to their operation, reduce their costs and save them time. Our new Cut-to-Length-Line processing does both – and allows us to easily customize the products we deliver.

Our high-performance Herr Voss CTL system is able to:

- Process coils up to 50,000 lbs., 1/4" thick x 72" wide.
- Perform leveling, line marking, paper interleaving, vinyl masking (2 sides).
- Process aluminum, stainless and carbon steel.
- Produce custom lengths and widths.

In addition to our coil products, the Sheet Facility houses Precision Saws, 3 Shears and a 4.0 million pound capacity sheet racking system. We offer standard and custom packaging. Our 30 ton crane along with 5, 5 ton cranes allow for efficient processing.

Creating a smarter – and greener – facility.

In addition to incorporating natural light through translucent panels, high efficiency and LED lighting, our facility uses solar panels to provide over 10% of its electrical needs. We've also incorporated the use of a high-efficiency HVAC heating system.

Happier employees. Happier customers.

At Yarde Metals, we believe that a significant factor in our success has been our ongoing commitment to our employees. Yarde Metals promotes a safe, happy and friendly work environment. We're proud to say that Yarde Metals was recognized as a Connecticut top workplace. Yarde Metals ranked 2nd in the Large Companies category as part of the Hartford Courant/FoxCT Top Workplaces 2011.

Each individual who works for Yarde Metals plays an essential role in keeping our customers happy and loyal. That's why every employee has access to:

- Coffee from Yarde Mountain Coffee Company, our in-house coffee company.
- A complete fitness facility.
- Horseshoes, bocce and basketball courts.
- An indoor driving range.
- A nap room.
- On-site dog kennels.

In addition, our new facility in Southington, CT features a 30,000 square-foot athletic field.
